I am a software developer with a passion for creating innovative solutions to complex problems. With a strong background in Computer Technology and programming languages , I have developed expertise in both front-end and back-end development. I am skilled in developing web applications, mobile apps, and software systems using Agile development methodologies. In addition to my technical skills, I am a team player with excellent communication skills and a keen eye for detail. I am always seeking to learn and stay current with the latest trends and technologies in the software development industry.

Skills

Javascript
Typescript
ReactJs
NextJs
NodeJs
GraphQL
SQL (PostgreSQL,mySQL)
MongoDB

Experience

-Open source contributor
-Startup founder

Surestep Innovation Center / software developer
January 2023 - PRESENT, Nairobi

Responsible for developing and integrating web applications to Microsoft Dynamics 365 Business Central applications .

Worked on CloudPesa , a mobile banking solution used by credit Unions (SACCOs) in Kenya .

React Devs Kenya / Open-source contributor
December 2022 - PRESENT,

I am currently working on a community open-source project for React Developers in Kenya . Upon completion the project aims at creating a hub for Kenyan developers using the React framework to discover other like minded devs , advertise job opportunities and plan tech meetup events . It's quite and ambitious project and we are working together towards its completion in the near future.

Teksade / contributor
January 2023 - PRESENT, Nairobi

I am working along with a group of six other developers to create Teksade , An open source project that will allow developers to discover

and join Tech communities from all over the country . I am actively working on the backend of the project using Typescript and GraphQL.

Navix Systems / Android developer

December 2020 - 2022,

Worked in the small startup developing Zofty , a mobile that allows users to order manpower like plumbers , maids and Electricians . I was involved in integrating the app with Safaricom's Daraja API for mobile payments .

Education

Multimedia University of Kenya / BS. Computer Technology

September 2019 - PRESENT, NAIROBI KENYA

Relevant coursework: Data Structures and Algorithms, Database Systems, Object-Oriented Programming, Software Engineering, Web Development, Computer Networks.

During my studies, I gained a solid foundation in computer science concepts and principles, with a particular focus on software development. I honed my skills in programming languages such as Java, Python, and C++, and gained hands-on experience building web applications and software systems. In addition to technical skills, my degree also provided me with a strong foundation in project management and collaboration, which has proven invaluable in my career as a software developer.
